# Impressions and experiences – voices from the MEDICA halls 2023

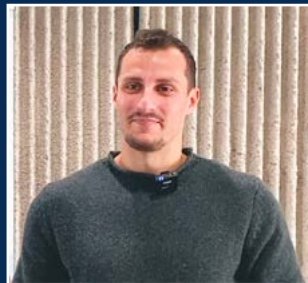

Dr. Jochen Rupp, Bosch Healthcare Solutions GmbH, reflects: „As one of the most important medical technology trade fairs, MEDICA offers us the opportunity to expand our networks and make new industry-relevant contacts.“

How are diabetes and sport compatible? German national field hockey player Timur Oruz spoke about this and describes MEDICA as an „important platform for exchange“ between all parties involved.

„MEDICA plays a huge role for us and gives us the perfect opportunity to display our product portfolio to an international audience,“ says Christian Bänder, Medical Econet GmbH, who are exhibiting at MEDICA for the 26th time.

Philipp Rütchlin is also at COMPAMED on business. „My highlights as a purchasing manager are making new contacts, getting to know new suppliers, technologies and opportunities, but also maintaining existing contacts,“ he reports.

Sefar AG has traveled to Düsseldorf from Switzerland. „We are here at COMPAMED looking for new partners,“ reports Roua Cheffi.

People at the WILDDSIGN booth are also content, says Marc Ruta: „We’ve been here in Düsseldorf for 20 years and feel more and more at home in the medical technology sector.“

# Exciting supporting program of the 7 forums and 3 conferences

# and the 3 special shows

More than 50 start-ups from all over the world presented numerous digital healthcare innovations in the MEDICA START-UP PARK in Hall 12.

The MEDICA SPORTS HUB focused on health sports, interactive fitness and professional sports and successfully connected relevant players and programs in the halls.

The HOSPITAL OF THE FUTURE showcased concrete solutions for telemedicine networks within the clinical sector and at the interface to the out-patient care sector.

The online matchmaking tool enabled visitors and exhibitors to make valuable contacts
